

Designed to Promote Increased Feed Conversion and Rapidly Improved Rumen Function in Stock

StockPLUS is a unique liquid supplement for cattle and sheep with a high capacity to improve feed utilisation and animal condition on poor feed. Facilitate nutrient uptake, boost dry feed and water consumption, maintain body condition on breeders, promote weight gain, and reduce animal anxiety and agitation.

BENEFITS

- Contains Calcium, Phosphorus, Zinc, Sodium and chelated trace elements to aid muscle function, the nervous system and metabolism for weight gain and reproductive requirements.
- Molasses fuels the demands of protein synthesising bacteria.
- Electrolytes increase nutrient transfer and absorption into the cellular tissue.
- Carboxylic acids stimulate rumen bacteria and bind free water and ammonia within the gut which assists feed conversion.

APPLICATION & RATES

| Application | Rate |
|-----------------------|---------------------|
| Weaner Cattle | 400-600ml/head/day |
| Grown Cattle/Breeders | 500-1000ml/head/day |
| Sheep | 50ml/head/day |

- Stock will generally self-regulate after initial consumption as rumen adjusts to increased function.
- Proximity to watering points will impact consumption rates – increase distance to reduce consumption.
- Animals with adequate nutrition will consume little to nil supplement.
- DO NOT give to horses.

HANDLING & STORAGE

- Do not store in direct sunlight.
- Refer to product Material Safety Data Sheet (MSDS) prior to use, available at www.bionutrient.com.au or by telephoning BioNutrients Head Office on (07) 4671 5811.
